

How to get to Midsund

You can get to Midsund from the towns of Molde and Ålesund. Here we describe both alternatives, each of which requires a short ferry trip. Norwegian ferries are subsidized and are therefore inexpensive. They run on frequent schedules.

Molde to Solholmen, Otrøya island (Midsund)

Go west from Molde, follow signs towards Aukra. Approx. 9 km (6 miles) from the city take off to the left where signs say Midsund. Ferry (15 minutes) from here to Solholmen on the island of Otrøya.

Ålesund to Dryna (the westerly island in Midsund)

Go east from Ålesund, follow sign towards Åndalsnes. Approx 25 km (15 miles) from Ålesund take off to the left, towards Brattvåg. At Brattvåg ferry to Dryna (20 minutes). This is the most westerly of the islands in the district of Midsund.
